MAQUILLAGE PRODUCT

Maquillage is proud to offer the finest quality cosmetics available from a select group of manufacturers. Since the products come from different private label sources and are not re-labeled, much makeup cost is eliminated allowing retail prices to be kept at production levels.

Maquillage also carries Joe Blasco® cosmetics, the foremost production make-up in the industry.

Several products are designed for the specialized needs of television in both color tone and texture. However, many items are not only suitable for television, but also for street wear. Additionally, several products are included to encompass beauty and fashion needs, as well as state of the art skin care.
